EXPERIENCE

AI-Integrated Full-Stack Developer Intern 6 Months

E-Skills | Indore, India

- Developed and shipped two production MERN stack applications integrating generative AI APIs (image generation via OpenAI), serving real end-users on Onrender.
- Engineered RESTful backend services with Node.js/Express.js, JWT authentication, protected routing, and MongoDB Atlas cloud data management.
- Used Claude and ChatGPT throughout development for debugging, code review, architecture decisions, and prompt engineering — reducing iteration cycles significantly.

PROJECTS

FoodieHub — Restaurant Menu & Order App : Full-stack food ordering platform with real-time tracking, status updates, and comprehensive admin panel (revenue analytics, menu & order management). Used Vercel v0 for rapid prototyping and GitHub Copilot for component acceleration, reducing frontend build time by ~30%. Tech stack: React.js, Node.js, MongoDB, Redux Toolkit.
